SUMMARY

Fullstack Developer with hands-on experience designing, developing, and deploying innovative software solutions. Motivated Self-starter focused on leveraging the latest technologies and frameworks to create and deliver new user-focused solutions while increasing reliability, stability, and performance at scale.

SKILLS

- **Engineering:** Fullstack Development, Frontend & UI/UX, Backend & Infrastructure, Cloud Architecture, API Design, RESTful Web Services, Microservices, Testing & Code Coverage, CI/CD, DevOps, Software Quality, Scalability, Performance, Reliability, Automation, Cybersecurity, Accessibility, Code Reviews, Documentation
- **Leadership:** Strategic Planning & Execution, Project Management, Prioritization, Process Improvement, Collaboration
- **Technology:** Java, Javascript, React, Bootstrap, React Native, Tailwind, Express, IntelliJ, Eclipse, C++, HTML, CSS, PHP, MySQL, MongoDB, Derby, Visual Studio, SQL Server, Postman, Git, GitHub

EDUCATION

- **Bachelor of Technology in Computer Systems, New York City College of Technology**   **June 2024**
    - **Coursework:** Data Structures, Object Oriented Program (OOP) with Java, Dynamic Web Development with Servlet/JSP, Object Oriented Systems Design, Software Development with .NET Framework
- **Associate of Science in Programming and Systems, LaGuardia Community College**
    - **Coursework:** Systems Analysis and Design, Web Development 2, Advanced C++, UNIX Network Operating Systems

SELECT PROJECTS

Effective Tax Rate Calculator
- Developed the backend of an effective income tax rate calculator application using Java.
- Created a Tax Web API with Spring Boot to access the server-side database of taxes by state/county using Derby.

EZ Car Rental
- Built a two-tier Windows client-server application for a backend car rental system using C# and ASP.NET.
- Implemented a database with stored procedures to increase reusability and streamline development using MS SQL Server.

Hubell-Bank
- Designed and developed a fullstack bank demo website using HTML, CSS, Bootstrap, Express Server, and MongoDB.
- Implemented a comprehensive login system with a database and CRUD operations to manage the user list and validation.

Tic-Tac-Toe
- Developed design patterns using Object-oriented programming principles to create a remake of Tic-Tac-Toe that users could play via terminal using C++.

WORK EXPERIENCE

Manager, Famous Pizza   **2018 - Present**
- Lead all restaurant operations, oversee food preparation and production with the back-of-house team, and manage the front-of-house team focused on improving the customer experience, ensuring satisfaction, and creating brand loyalty.
- Hire, train, manage, and mentor a cross-functional team of 4 staff serving hundreds of customers daily.
